### FrontEnd Web Developer Intern

RegVector

08/2023 - 11/2023

Bengaluru, India

Regvector Sports and Technologies Private Limited is a startup which deals with the full development from product conceptualization to testing.

#### Achievements/Tasks

- Played a key role in designing and building an e-commerce website for the startup.
- Contributed to the UI design, enhancing the user experience and interface.
- Leveraged React, JavaScript, and TailwindCSS for building a responsive and visually appealing website.
- Collaborated with the team to align the website with the company's goals and customer needs.

### Frontend Web Developer Intern

RealsStates

11/2023 - 01/2024

Bengaluru, India

RelasStates is a startup in the real estate sector, leveraging cutting-edge technology to provide innovative and user-friendly online services.

#### Achievements/Tasks

- Worked with React, TailwindCSS and JavaScript to contribute to the development of a dynamic website catering to online real estate services.
- Played my role in crafting an intuitive user interface.

## SKILLS

C Programming

C++

Python

HTML5

TailwindCSS

CSS

JavaScript

ReactJS

Java

## PERSONAL PROJECTS

### GPA Calculator (07/2023 - 08/2023)

- Engineered a dynamic web application using React, JavaScript, and TailwindCSS, specifically designed to calculate the GPA of first-year VTU students.
- The application effectively translates user input into accurate GPA calculations, serving as a practical tool for students to monitor and manage their academic performance.

## ORGANIZATIONS

### Enlightera (03/2023 - Present)

Started in the technical team of Enlightera, hosted events, and conducted a quiz. Showcased creativity by designing event posters. Advanced to Technical Team Head, improving team productivity and quality. Actively campaigned for club events.
